PREFACE.

FRI. 29 JUN \94

THE BRITISH COLUMBIA OFFICIAL DIRECTORY for 1894, is now submitted to subscribers, and the publishers hope it will be as acceptable as ever. No trouble or expense has been spared to make the work as complete as possible, and to those who have so freely assisted us in compiling the information herein contained, we tender our best thanks.

There is, perhaps, no directory published under greater difficulties than is ours. The district covered—the whole Province of British Columbia—is immense, and as new settlements are being formed almost every other day, many of them in sections of the country difficult of access, it is no easy matter to keep in touch with all.

We hail with pleasure the many signs of advancement apparent on all sides. The past year has seen several communities incorporated as cities and municipalities, and others will follow the good example ere 1894 closes. The various enterprises afloat for railway, road and bridge construction will, it is hoped, materialize in the near future, thus rendering communication with distant parts of the province more easy, and the work of the directory less arduous.

That British Columbia is attracting every year a greater share of attention from the well established seats of capital and labor, is evidenced by the increased foreign demand for the Directory, which now finds a place in almost every business establishment on this continent and abroad with which our merchants trade. Our advertising connection is steadily improving, as is also the circulation of the Directory, which we take as proof of the popularity and usefulness of the work.

Several changes have this year been made in the general get-up of the Directory. We have endeavored to supply reliable and complete information in as concise a form as possible, and have, at no small financial loss, refused to admit the pages of the book to be cut up by advertisements.

After the ground had been fully covered by the enumerators, we invited by advertisement in the public press, all who contemplated a change of address to apprise us of same so that the change might be duly recorded. Very many complied; those who have not cannot blame us if the old address appears in the present issue.

THE WILLIAMS' OFFICIAL DIRECTORY CO., LT'D.

VICTORIA, B.C., January, 1894.

Entered according to Act of Parliament of Canada in the year one thousand eight hundred and ninety-four, in the Office of the Minister of Agriculture at Ottawa. by F. L. NEALE, Secretary and Treasurer.

COURTENAY.

FRANK WHITNEY, POSTMASTER.

In the Provincial Electoral District of Comox and Dominion Electoral District of Vancouver, is about three miles from Comox on the Courtenay river, and is situated in one of the most fertile valleys on the Island. The village, which has a population of about 150, has sprung into existence within the past year or two, and is making rapid progress. A weekly newspaper is published in Courtenay—The News.

Salmon Pack, 1893.

The returns for last year's salmon pack had not been completed up to the time of going to press, but from information supplied by owners and agents, it can be put down, approximately, at 575.000 cases. To this total the Fraser River canneries contributed 450,000 cases. This is an exceptionally large pack, but yet not fully up to the expectations of the cannery men, as 1893 was *the* year in four. The major portion of the pack is shipped to England, but it is an almost assured fact that Australia will prove a better market this year than ever, owing to the increased facilities for shipment. (See page 32.)

PROVINCIAL INFORMATION.

PROVINCE OF BRITISH COLUMBIA.

British Columbia has an estimated area of 383,000 square miles, and a population, according to the last official census, of 98,173, made up of 54,061 whites, 35,202 Indians, and 8,910 Chinese. The province is a great quadrangle of territory, 700 miles long by 400 wide, lying north of latitude 49°, and west of the central core of the Rocky Mountains, extending along the Pacific Coast as far as latitude 55°, and including a large number of adjacent islands. Striking inland to latitude 60°, it is shut off from the sea board by a narrow strip of Alaskan territory, and is bounded on the east by longitude 120°. The great mountain ranges of the province—the Rockies and Selkirks on the east, and the Coast and Island ranges on the west—exercise a very important influence upon the country, climatically as well as commercially. There is no mountain scenery in the world to compare with that of British Columbia, nor are better facilities anywhere afforded of enjoying it.

MINERAL RESOURCES.

It is not alone the scenic grandeur of these magnificent ranges that is their chief commendation, but their astonishing mineral wealth, which is indeed phenomenal. To her mineral wealth is due the first prominence which the country attained, her gold placers for a long time being the chief attraction to her shore. The base and precious metals are almost everywhere to be found in the province, and are bound to prove a chief factor in her future development. It is a well-established fact that a purely agricultural country rarely attains to any very high degree of wealth or importance, as compared with one in which mineral deposits are rich. It must not, however, be inferred that British Columbia lacks in fertility of soil or salubrity of climate, for in both respects she is liberally endowed. But then the speedy accumulation of wealth, which naturally follows in the wake of successful mining of the precious metals, and the impetus given to manufacture by the presence of coal and iron in abundance, have ever been found an attraction to any country blessed with these indispensables to prosperity. Mining, however, has heretofore been conducted after a very crude fashion; but a better day has dawned, science, mechanism, capital and system being brought to the aid of enterprise and labor. New roads are being constructed in the richer of the mineral regions, railway systems built up, and the most approved machinery introduced for the treatment of the ores. Writing of the resources of British Columbia, Professor Dawson, C. M. G., F. R. S., (*Mineral Wealth*, p. 15) says:—

"Everything which has been ascertained of the geological character of the Province, as a whole, tends to the belief that so soon as means of travel and transport shall be extended to what are still the more inaccessible districts these also will be discovered to be equally rich in minerals, particularly in the precious metals, gold and silver."

COAL.

The coal fields of British Columbia are extensive—inexhaustible—while the quality of the "black diamond" is second to none. An area of 200 square miles is about that of the Nanaimo coal measures; those of Comox about 300, computed to yield 16,000,000 tons per square mile. In various other parts of the province coal of excellent quality is also being mined, notably in the Nicola Valley, the Crows' Nest Pass of the Rocky Mountains, the Thompson, etc.

IRON.

The iron ores of the province have not been worked to anything like their capacity, although in quality many of them compare most favorably with the best known deposits in the world, while in quantity they are practically inexhaustible. Of recent date, however, more attention has been paid to this source of wealth. The ready market which the ore meets with from abroad has encouraged capitalists to many of the well known sources of the higher grades. Like the precious metals, iron is found almost in every section of the province.

SILVER AND COPPER

are also found in great abundance, and of excellent quality, and are being worked with great success. It is claimed for Manitoba that all that is necessary is to tickle the surface with the plow, and the crops will grow. Slightly paraphrased the statement would be equally applicable to British Columbia, the tickling process being done by the pick, and the yield precious metal instead of cereals.

LUMBER.

The timber limits of British Columbia are among the finest in the world, but unfortunately the trade in lumber cannot be said to be much more than in its infancy. As, however, the supplies of the forest states of the Union, eastern Canada or other great sources of supply become exhausted, or the lumberman is driven back from the navigable waters, the prospects for the trade of this province must necessarily become very bright. Cedar and Douglas fir are the woods chiefly handled, the supply in each case being unlimited. Good specimens of the former measure from sixty to eighty feet in circumference, and the number of such trees to the acre can be estimated when it is stated that 30,000 feet is considered a low average in some of the limits on Vancouver Island as well as on the mainland. Timber limits or forest areas can be leased from the government upon very favorable terms—ten cents per acre per annum; fifty cents per thousand feet cut, with a rebate of twenty-five cents per thousand exported out of the province, is the royalty.

FISHERIES.

Seal hunting, salmon canning, and deep sea and coast fishing, are the marine industries of this Province. They are pursued with a vigor worthy of the success which attends them. In each department a steady advance is year by year taking place, and with the immense possibilities for even more rapid development, it is difficult to estimate the wealth assured. Despite prolonged international disputes concerning the Behring Sea, the sealing fleet has more than doubled in number within the past few years, about seventy vessels being last season engaged in the industry, giving employment to over fifteen hundred men. The result of the International arbitration is not received with general favor in this Province at least, as the season during which seal can be captured is shortened, and the appliances for capturing the precious skins have been changed from the rifle to the spear. For years Victoria has been the headquarters of the sealing fleet, and should the sealers be obliged to change their rendezvous it would be a very serious loss to British Columbia's capital. Besides the business done in seals, there is a large trade in the skins of other fur-bearing animals, such as the bear, beaver, fox, otter, lynx, wolf, mink, skunk, racoon, etc., but it is chiefly in the hands of the Indians, who make very clever trappers.

THE CLIMATE.

The climate of British Columbia, as a general rule, possesses all the features which are to be met with in European countries within the temperate zone, any differences which do exist being in favor of the western parts of the fair Dominion of Canada. A milder or more equable climate it would be difficult to find, and yet the variations are such as to offer peculiar advantages to all-comers. The spring, summer and autumn are charming, while the winter season is short and mild.

THE MARITIME IMPORTANCE OF B.C.

It is but a few years ago since the ports of British Columbia were derided as the "back door" of Canada, but to-day they exceed in tonnage of vessels entered and cleared, any other port in the Dominion. The whole Pacific Coast is rapidly building up, and this Province is bound to keep pace in the march of progress. Every year sees the development of new commercial enterprises, the last addition to the long list being the establishment of regular steamship connection (subsidized by the Governments of both countries) with Australia. Trade with the Orient is also steadily increasing, a magnificent line of steamships having been put on this route in connection with the Canadian Pacific Railway—a system which extends from the Atlantic to the Pacific Ocean.

THE GOVERNMENT OF BRITISH COLUMBIA.

The confederation of the various provinces of British North America into the Dominion of Canada secures absolute autonomy in every respect, except in such affairs as clearly pertain to the Empire or the Dominion as a whole, as the customs, the postal service, the wardship of the Indians, etc. Ottawa is the seat of government, and there the Dominion Parliament meet annually, British Columbia being represented by six members in the lower house, elected by popular suffrage, and three senators in the upper house, nominated by the Crown. The provincial assembly meets at Victoria, the capital of the Province, every year, and is composed of thirty-three members, five of whom, under the lieutenant-governor, form the executive or ministry. Manhood suffrage practically prevails, as the franchise is exercised by all males over the age of twenty-one years, who are British subjects and have resided in the province for twelve months. The laws of the country are based upon those of the Motherland, and nowhere is there greater freedom or protection than is to be found in this Province. Land can be acquired from the Crown under conditions most favorable to intending settlers, who receive every facility. As to the solvency of the Province, it is beyond dispute, the whole public debt not being much in excess of one year's income.

THE PUBLIC SCHOOL SYSTEM.

The duty of amply providing for the education of the youth of British Columbia has been undertaken by the government, and with commendable liberality is this duty performed. Wherever a minimum attendance of ten scholars can be secured there a school is established and a duly certified teacher located. Such liberality in the matter of educational facilities is nowhere surpassed, if at all equalled, and that it is fully appreciated is evidenced from the fact that there is hardly a settlement, however remote, throughout the country that does not boast of its school house, while in the cities "high schools" are established, also under government supervision, for the instruction of the more promising pupils.

A DISTINGUISHED VISITOR.

Of British Columbia as a farming, grazing and fruit growing country, the Marquis of Lorne says: Wherever there is open land the wheat crops rival the best grown elsewhere, while there is nowhere any dearth of ample provision of fuel and lumber for the winter. As you get your colonization roads pushed, you will have a larger available acreage, for there are quiet straths and valleys hidden away among the rich forests which would provide comfortable farms. As in the Northwest last year, so this year,

WOODS & GAMBLE 538 COLUMBIA STREET, INSURANCE.
NEW WESTMINSTER, B. C.

I have taken down the evidence of settlers, and this has been wonderfully favorable. To say the truth, I was rather hunting for grumblers and found only one. There is no reason why British Columbia should not be for this portion of our territory what California is to the States, in the supply afforded of fruits. The perfection attained by small fruits is unrivalled, and it is only with the Peninsula of Ontario that you would have to compete for the supply of grapes, peaches, pears, apples, cherries, plums, apricots and currants.

The most richly endowed with gifts of material advantages of all provinces, British Columbia excels them all in beauty. In the magnificence of her rugged mountains, the charm of her land-locked waters, the lonely grandeur of her forests and the quiet beauty of her praires, she possesses a wonderful variety—a combination of scenic beauty. Whether a traveller approaches from the east after crossing the apparently illimitable prairies, or from the west at the conclusion of an ocean voyage, he is filled with a sense of relief, mingled with curiosity and pleased expectancy. The features that may be found almost beautiful must depend on the temperament of each spectator, but it happens that nature has so arranged the forms and attributes of this country that whether coming from the east or west the traveller finds a striking contrast to that which he is leaving behind him, and as contrast is a primary condition of excellence in that which is to delight the eye, his æsthetic sense is sure of gratification.

EDUCATION.

The following extracts from the twenty-first annual report of the Superintendent of Education for 1892, shows not only a large increase in enrollment and average attendance at the schools during the year, but that the progress made was also satisfactory, and gratifying.

The number of schools in operation was 149, as follows: High schools, 4; Graded schools, 14; Ward schools, 7; Rural schools, 124.

The number of teachers and monitors employed was 228, an increase of 43 over that for the previous year.

The whole number of pupils enrolled during the year was 10,773 an increase 1,513 over that for the previous year, and the average actual daily attendance was 6,227.10 an increase of 1,092.19 for the same period.

The total expenditure by the Lands and Works Department for the construction of school houses, furniture, repairs and improvements was $47,-192.58.

The total expenditure for all purposes of education during the year was $173,378.53.

During the past year school houses were erected, or additions made to school buildings in twenty-eight districts.

At the present time schools are in operation in eleven newly created districts.

The following is the statistical abstract of attendance:

Number of pupils enrolled during the year	10,773
Increase for the year	1,513
Number of boys enrolled	5,437
Increase for the year	712
Number of girls enrolled	5,336
Increase for the year	801
Average actual daily attendance	6,227.10
Increase for the year	1,092.19
Number of pupils enrolled in High schools	312
Increase for the year	56
Average actual daily attendance in High schools	204.53
Average actual daily attendance in Graded schools	3,812.77
Average actual daily attendance in Rural schools	2,209.80
Number of School Districts at close of year	154
Increase for the year	13

ince, the following synopsis is given:

First.—"The Council shall admit upon the register any person who shall produce from any college or school of medicine or surgery, requiring a three years' course of study, a diploma of qualification; provided, also, that the applicant shall furnish to the Council satisfactory evidence of identification, and pass before the members thereof, or such of them as may be appointed for the purpose, a satisfactory examination touching his fitness and capacity to practice as a physician and surgeon." 1886, c. 13, s. 28.

Second.—"The Council shall admit upon the register every person mentioned in chapter 48 of the Acts of Parliament of the United Kingdom, passed in the 49th and 50th years of Her Majesty's reign, duly registered under the 'Medical Act,' (Imperial), prior to and inclusive of the 30th day of June, 1887, upon complying with the orders, regulations or by-laws of the Council and giving due proof of such registration, and that the person applying for registration has not lost the benefit of same by reason of misconduct or otherwise, and upon payment of the fees, fixed by the Council, not to exceed one hundred dollars."

The regular meetings and examinations are held, beginning on the first Tuesday of May and September and second Tuesday of January in each year.

Postal Guide and Rates.

LETTERS.

Letters—Canada and United States, 3 cents per 1 oz., or fraction thereof. Great Britain and Newfoundland, 5 cents per ½ oz., or fraction thereof. City or Drop Letters, for city delivery, 2 cents, or fraction thereof.

Registration Fee—United States, Great Britain and European countries, Canada or Newfoundland, 5 cents.

Letters addressed to places in the United States must be prepaid at least one full rate, 3 cents; otherwise they will be sent to the Dead Letter Office.

Letters addressed to any place in Canada, wholly unpaid, will be sent to the Dead Letter Office.

Letters addressed to places in Canada, and at least partially prepaid, will be forwarded to destination, subject on delivery to double the amount of postage remaining unpaid.

Redirected Letters to any place in United States or Canada will be forwarded free, provided they are not taken from the postoffice, otherwise full rate will be charged.

LEGAL AND COMMERCIAL DOCUMENTS.

The postage on Legal and Commercial Papers for the United States, Great Britain and all European countries, is 5 cents for the first 10 oz., and 1 cent for every additional 2 oz. These papers, when posted for de-

HUDSON'S BAY COMPANY Wholesale Grocers & Wine Merchants
VICTORIA, B. C.

livery in Canada, must be prepaid at Letter or Parcel Post rates—but deeds and Insurance Policies may be sent, if prepaid, 1 cent per 2 oz.

POST CARDS.

For Canada and the United States, 1 cent each. For Great Britain and all Postal Union countries, 2 cents each. Reply cards, for Canada only, 2 cents each. Nothing must be attached to a post card, nor must the card be cut or defaced in any way.

BOOKS AND MISCELLANEOUS MATTER.

Books, Pamphlets, Circulars, to Canada, 1 cent per 4 oz.; to the United States and Great Britain, 1 cent per 2 oz.; Photographs, Printers' Proof Sheets, etc.. addressed to Canada or Newfoundland, the United States, Great Britain and all European countries, 1 cent per 2 oz.

No package must exceed 2 feet in length by 1 foot in width or depth. The limit of weight for Canada, United States is 5 lbs unless consisting of a single book, in which case a weight of 7 lbs is allowed. Great Britain is 5 lbs; for other Postal Union countries, 4 lbs.

Seeds, Cuttings, Bulbs, Roots and Scions or Grafts can only be sent to the United States as 5th class matter. When posted for delivery in Canada, the postage is 1 cent per 4 oz., and the limit of weight 5 lbs.

NEWSPAPERS.

Transient newspapers within the Dominion, United States or Newfoundland, 1 cent per 4 oz, or fraction thereof. A single newspaper open weighing less than 1 oz. will be forwarded for ½ cent. To the United Kingdom and all European countries 1 cent for 2 ozs. or under. In all cases the postage must be fully prepaid.

PARCEL POST—FOURTH CLASS MATTER.

United States—Limit of weight, 5 lbs; size, 2 feet by 1 foot. Must not be sealed. For full particulars apply at postoffice.

Canadian—Six cents per 4 oz; limit of weight, 5 lbs; size, 2 feet by 1 foot; can be registered, fee 5 cents.

United Kingdom—Twenty cents per lb. or under; limit of weight, 11 lbs; size, 2 feet by 1 foot. Customs declaration must be attached.

Newfoundland—Fifteen cents per lb. or under; limit of weight, 5 lbs; size, 2 feet by 1 foot. A Customs declaration must be attached.

SAMPLE POST.

Sample post to any place in Canada and Newfoundland, 1 cent per 4 oz; limit of weight, 24 oz. The limit of weight to United States is 8 oz., 2 cents for the first 4 ozs. and 1 cent for every additional 2 ozs. The limit of weight to the United Kingdom is 12 oz; dimensions, 12 inches long 8 wide and 4 deep.

MONEY ORDERS.

Money Order offices opened from 9 a. m. to 4 p. m. All letters containing money orders should be registered.

SALMON.

The total quantity of salmon packed at the different establishments in the Province during 1892, reach 228,470 cases. From past experience it was predicted that the Fraser River canneries would yield but a small pack, and this was demonstrated by the results, showing 80,215 cases only; Skeena River contributing 89,780 cases; Rivers' Inlet, 15,126 cases; Naas River, 25,434 cases, and various outside canning establishments 17,915 cases.

To England	163,311 cases
To Canada	59,350 "
To Australia	1,498 "
Local and Sundries	4,311 "
Total	228,470 cases

(For pack of 1893, see Addenda.)

Railways, 1893.

Six railway lines are now under course of construction, viz.: The Nelson & Fort Sheppard, running from Nelson in the Kootenay District to the American boundary, and connecting with the American systems; the Revelstoke & Arrow Lake R.R., and the Nakusp & Slocan R.R., the former from Revelstoke on the C.P.R., south to the head of Arrow Lake, and the latter from Nakusp in the Southern end of the same lake to a point in the heart of the Slocan mining region, the two lines to be connected by a ferry capable of carrying a train of cars; the Kaslo & Slocan, from Kaslo on Kootenay Lake to a point in the Slocan mining region; the B.C. Southern from the Crow's Nest coal mines south to a point on the Boundary; the Victoria & Sidney, running from Victoria to Sidney in Saanich farming district; the Burrard Inlet & Fraser R.R., running from Vancouver to a connection with the Seattle, Lake Shore & Eastern at the Boundary near Mission City, and crossing the Fraser by bridge at New Westminster. Of the projected lines, the chief is the Canadian Western Central, now known as the British Pacific. This is intended to run from Victoria North to the upper end of Vancouver Island, and East to the Boundary of the Province at the Yellowhead or some convenient pass, opening up the Chilcotin and Cariboo Districts, famous for their pastoral lands and their gold mines.

Of the numerous charters, may be mentioned those of the Nicola Valley R.R., running from Spence's Bridge on the C.P.R. fifty miles to coal mines in the Nicola country, and the Chilliwack Railway running from the Fraser Delta to Chilliwack, on the south side of the Fraser River.

The C.P.R. is surveying a line for a route through Crow's Nest Pass to Nelson on Kootenay Lake. This will give the road an easier route through the mountains.

Customs Statistics.

Provincial Museum.

This institution, which was started in October, 1887, has made such rapid strides that it has been found necessary to make considerable additions to the building for the reception of minerals, fossils and Indian curios. The principal display of specimens of natural history is conceded to be the finest in the Dominion, and the contributions are continually increasing. It is free to the public, being supported by the provincial government. Among the interesting collection of rare animals will be found the Musk Ox, the White Goat, the Mountain Sheep, the Reindeer, Wapiti, and the Grizzly Bear, etc. Birds are also well represented, there being between three and four hundred specimens.

During the last year large additions have been made to the Indian collection, and a new room has been added to this department so that at the present time the exhibit is quite an interesting one, comprising, as it does, about 2,000 specimens of Indian work in stone, horn and wood, not a few of which are the work of tribes long since passed away.

In the products of its mountains, rivers and forests, in the treasures which lie hidden beneath its stretch of six hundred miles of sea, few countries can boast of more varied and prolific resources than British Columbia, and material enough can therefore be found within its borders to form one of the most interesting and instructive collections in the Dominion.

The co-operation of the general public is necessary to insure the museum becoming a really representative institution. It is therefore earnestly desired that geological and natutal history specimens from all parts of the Province may be collected by those who have the opportunity, and forwarded to the Curator; the receipt of all such contributions will be promptly acknowledged, and the transportation charges fully paid.

Packages of ores should not be too large, and each specimen should be accompanied with a note of locality, position and extent of formation.

John Fannin, Curator; Hours of admission—Daily, 9 a.m. till 5 p.m.; Saturdays, 9 a.m. till 3 p.m.

Natural History Society of British Columbia.

At a meeting held in the office of the Provincial Museum on March 26, 1890, by a number of gentlemen interested in the study of Natural History, it was decided that a society should be organized bearing the title of the Natural History Society of British Columbia, and that the object of this society should be to acquire and promote a more extended knowledge of the natural history of the Province, and to act as an independent auxiliary to the Provincial Museum.

A series of most interesting and instructive papers on natural history subjects was read by various

COMMITTEE.

O.C. Hastings, C. P.Wooley, Rev. Canon A. Beanlands, M. A., C. Lowenberg.

Provincial Government Lands.

Crown Lands in British Columbia are classified as either surveyed or unsurveyed lands, and may be acquired either by record or pre-emption, or by purchase.

PRE-EMPTIONS.

The following persons may record or pre-empt Crown lands, viz: Any person being the head of a family, a widow, or a single man over 18 years of age, being a British subject, may record surveyed or unsurveyed Crown lands, which are unoccupied, unreserved and unrecorded.

Aliens may also record such surveyed or unsurveyed lands, on making a declaration of intention to become a British subject.

The quantity of land which may be recorded or pre-empted is not to exceed 320 acres northward or eastward of the Cascade or Coast Mountains, or 160 acres in the rest of the province.

No person can hold more than one pre-emption claim at a time. Prior record or pre-emption of one claim and all rights under it, are forfeited by subsequent record of pre-emption of another claim.

Land recorded or pre-empted cannot be transferred or conveyed till after a Crown grant has been issued.

Such land, until the Crown grant is issued, is held by occupation. Such occupation must be a bona fide personal residence of the settler or homestead settler, or his family.

The settler must enter into occupation of the land within thirty days after recording, and must continue to occupy it.

Continuous absence for a longer period than two months consecutively of the settler or homestead settler, or family, is deemed cessation of occupation; but leave of absence may be granted not exceeding six months in any one year, inclusive of the two months' absence. In cases of illness, vouched for by sufficient evidence, or in the cases of immigrant settlers returning to their former homes to bring their families to their homesteads, or in other special cases, an extension of time may be granted, during which the pre-emptor may be absent from his claim without prejudice to right therein.

Land is considered abandoned if unoccupiod for more than six months in the aggregate in one year, or for more than two months consecutively.

If so abandoned, the record of the settler so ceasing to occupy the same, and all improvements and buildings made and erected on such land, shall be absolutely forfeited to the Crown.

The fee on recording is $2.

Any pre-emptor of unsurveyed land may have the land surveyed at his own expense, subject to rectification of boundaries, or wait till the Chief Commissioner causes it to be surveyed.

PAYMENTS FOR LAND AND CROWN GRANTS.

The price of Crown lands pre-empted is one dollar per acre, which may be paid in four equal instalments, as follows: First instalment, two years from date of record or pre-emption, and each other instalment yearly thereafter, until the full amount is paid. But the last instalment is not payable until after the survey.

The Crown grant excludes gold and silver ore, and reserves to the Crown a royalty of five cents per ton of merchantable coal raised or gotten from the land, not including dross or fine slack.

21 and 23 Broughton Street, Victoria, B. C. Tel. 129.

No person shall be entitled to record or pre-empt any land included in any timber lease, if the land which it is proposed to record has on each eighty acres thereof milling timber to the extent of ten thousand feet per acre.

A Crown grant can be issued to an alien who may have recorded or pre-empted by virtue of his declaring his intention to become a British subject, unless he has become naturalized.

The heirs or devisees of the homestead settler are, if resident in the Province, entitled to the Crown grant, on his decease.

If they are absent from the Province at the time of his death, the Chief Commisioner may dispose of the pre-emption, and make such provision for th · person entitled thereto, as he may deem just.

PRE-EMPTION FOR PARTNERSHIP PURPOSES.

Partners, not exceeding four, may pre-empt as a firm 160 acres each west of the Cascades to each partner, and 320 acres east of the Cascades to each partner.

Each partner must represent his interest in the firm by actual residence on the land. But each partner, need not reside on his particular pre-emption.

The partners, or their agents, may reside together on one homestead if the homesteads be situated on any part of the partnership pre-emption.

For obtaining a certificate of improvement, it is sufficient to show that improvements have been made on some portion of the claim, amounting in the aggregate, to $2.50 per acre on the whole land.

Mining Laws.

FREE MINERS AND THEIR PRIVILEGES.

Every person over, but not under, eighteen years of age, and every joint stock company, shall be entitled to all the rights and privileges of a free miner, and shall be considered a free miner, upon taking out a free miner's certificate. A minor who shall become a free miner shall, as regards his mining property and liabilities contracted in connection therewith, be treated as of full age. A free miner's certificate issued to a joint stock company shall be issued in its corporate name. A free miner's certificate shall not be transferable. 1891, c. 25, s. 3.

A free miner's certificate may be granted for one or more years, to run from the date thereof, or from the expiration of the applicant's then existing certificate, upon the payment therefor of the fees set out in the Schedule of fees to this Act. Only one person or one joint stock company shall be named therein. 1891, c. 25, s. 4.

RECORD OF CLAIM.

Every free miner locating a mineral claim shall record the same with the Mining Recorder of the district within which the same is situate, within fifteen days after the location thereof, if located within ten miles of the office of the said Mining Recorder. One additional day shall be allowed for such record for every additional ten miles or fraction thereof. Such record shall be made in a book to be kept for the purpose in the office of the said Mining Recorder, in which shall be inserted the name of the claim, the name of each locator, the number of each locator's free miner's certificate, the locality of the mine, the direction of the location line, the length in feet, the date of location, and the date of the record. Such record shall be, as near as may be possible, in the Form B in the Schedule to the Act, and a certified copy thereof shall be given by the Mining Recorder to the free miner or his agent. A claim which shall not have been recorded within the prescribed period shall be deemed to have been abandoned. 1891, c. 25, s. 19; 1892, c. 32, s. 7; 1893, c. 29, s. 5.

DISCOVERERS' CLAIMS.

To one discovery, 300 feet in length. To two discoveries, 600 feet in length. To three, 800 feet in length. To four, 1000 feet in length, and to each member of a party beyond four in number, a claim of the ordinary size only.

A new stratum of auriferous earth or gravel situated in a locality where

NEW WESTMINSTER, B. C.

the claims are abandoned, shall for the above purposes, be deemed a new mine, although the same locality shall have been previously worked at a different level: and dry diggings discovered in the vicinity of bar diggings shall be deemed a new mine, and vice versa. A discoverer's claim shall be reckoned as one ordinary claim.

Creek discovery claims shall extend 1000 feet on each side of the centre of the creek, or as far as the summit.

LEAVE OF ABSENCE.

On discovery of a new lode or vein containing minerals, six months. On proving expenditure, in cash, labor, or machinery, of $1,000 on each full interest (without reasonable return) one year. Under other conditions Gold Commissioner has option.

MINERAL CLAIMS.

Any free miner desiring to locate a mineral claim shall, subject to the provisions of this Act with respect to land which may be used for mining, enter upon the same and locate a plot of ground measuring, where possible but not exceeding, 1,500 feet in length by 1,500 feet in breadth, in as nearly as possible a rectangular form, that is to say all angles shall be right angles, except in cases where a boundary line of a previously surveyed claim is adopted as common to both claims, but the lines need not necessarily be meridional. In defining the size of a mineral claim, it shall be measured horizontally, irrespective of inequalities on the surface of the ground. 1893, c. 29, s. 3.

A mineral claim shall be marked by two legal posts, placed as near as possible on the line of the ledge or vein, and the posts shall be numbered 1 and 2, and the distance between posts 1 and 2 shall not exceed fifteen hundred feet, the line between posts Nos. 1 and 2 to be known as the location line, and upon posts Nos. 1 and 2 shall be written the name given to the mineral claim, the name of the locator, and the date of the location. Upon No. 1 post there shall be written, in addition to the foregoing, "Initial Post," the approximate compass bearing of No. 2 post, and a statement of the number of feet lying to right and to the left of the line from No. 1 to No. 2 post, thus:—"Initial post. Direction of post No. 2. feet of this claim lie on the right, and feet on the left of the line from No. 1 to No. 2 post."

All the particulars required to be put on No. 1 post shall be furnished by the locator to the Mining Recorder at the time the claim is recorded, and shall form a part of the record of such claim.

When a claim has been located, the holder shall immediately mark the line between posts Nos. 1 and 2 so that it can be distinctly seen; in a timbered locality, by blazing trees and cutting underbrush, and in a locality where there is neither timber nor underbrush, he shall set legal posts so that such line can be distinctly seen.

In cases where, from the nature or shape of the ground, it is impossible to mark the centre line of the claim, provision is made. (See Mineral Act, 1891.) Only one claim on the same lode or vein can be held except by purchase. Quartz claims are deemed to be mineral claims.

To lawfully hold a Crown grant for a mineral claim, it must be surveyed by a surveyor approved by the Land Office, notice of application for the grant must be posted conspicuously on the land and on the Government office of the district, also inserted for sixty days in the Government Gazette, and a newspaper, if any, circulating in the district, and proof must be given to the satisfaction of the Government officers that $500 have been bona fide expended in money or labor upon the claim, exclusive of all houses, buildings and other like improvements. Or a Crown grant may be got by paying $25 per acre to the Government in lieu of representation and expenditure of the claim.

General provisions for ordinary mining claims apply to mineral claims as far as may be.

The proper representation of "mineral" claim requires that the sum of

T. J. TRAPP & CO., Hardware, Paints, Oils and Agricultural Implements.
Columbia Street, NEW WESTMINSTER, B. C.

HUDSON'S BAY COMPANY Wholesale Grocers & Wine Merchants
VICTORIA, B. C.

one hundred dollars, in money, labor or improvements shall be expended in the first six months of every year upon the claim to the satisfaction of a Gold Commissioner or Mining Recorder, and that the owner shall have obtained a certificate from the Gold Commissioner or Mining Recorder, to that effect, within six months from the location of the claim, and thereafter within the first six months in every year, and shall have recorded the certificate immediately after its issue.

Leases of mining ground, ditch privileges, etc., may be issued, but will not in general be granted for a longer term than ten years, or for a quantity of ground greater than:

In dry diggings, ten acres;

In bar diggings, unworked, half a mile in length along the high water mark;

In bar diggings worked and abandoned, one mile and a half in length along the high water mark;

In creek claims on abandoned creeks one mile and a half in length.

The regulations as to flumes, ditches, and drainage need not be detailed, but it may be stated that the water taken into a ditch or sluice has to be measured at the ditch or sluice head. No water should be taken into a ditch or sluice except in a trough placed horizontally at the place at which the water enters it. One inch of water means half the quantity that will pass through an orifiice two inches high by one wide, with a constant head of seven inches above the upper side of the orifice.

COAL PROSPECTING LICENSES.

A twelve months' prospecting license for 480 acres of vacant coal land in one block, may be granted by the Government on payment of $25. The licenses may be extended for another year if the licensee has actually explored for coal, on payment of $50. The license is not transferable without notice being given to the Chief Commissioner of Lands and Works. If the licensee wishes to purchase the coal lands, he may do so under the Land Act for $2.50 per acre.

TIMBER LICENSES.

Unlicensed persons, except for farm or mining purposes, etc., are not permitted to cut trees on Crown lands. A timber license may be granted for 1000 acres for four years on payment of $10 annually, and 15 cents for each tree (except hemlock) felled, payable half-yearly. No person can hold more than one license at the same time, and it is not transferable. Mill-owners cannot saw logs taken from Crown lands [in which are included lands leased at less than ten cents an acre], until the timber dues of twenty cents per thousand feet, board measure are paid.

ALBERNI.

POSTMISTRESS, MRS. AGNES ERICKSON

In the Dominion electoral district of Vancouver and Provincial of Alberni, is situated on the west coast of Vancouver Island at the head of the canal, 120 miles from Victoria, 54 from Nanaimo. Mails weekly; nearest railway station, banking point, telegraph and express office, Nanaimo. Regular fortnightly steamboat communication with Victoria and Barclay Sound points, and by stage to Nanaimo. The Alberni valley is about 25 miles long and ten wide, and is a beautiful fruit, vegetable and grain growing country. There is excellent fishing and shooting to be had, and the climate is mild throughout the year. Besides farming on a large scale, there are many other industries, saw mills, paper mills, mining, etc. The population is rapidly growing.

COMOX DISTRICT.

POSTMASTERS—COMOX, J. B. HOLMES; GRANTHAM, MRS. GRIEVE; SANDWICK, ERIC DUNCAN.

COMOX—The southern postal division of Comox District in the Provincial Electoral District of Comox and the Dominion Electoral District of Vancouver. It is the landing place of the weekly steamer from Nanaimo, distant about 60 miles, and 10 miles by wagon road from Union Mines. The district is about 140 miles north of Victoria, and on the east coast of Vancouver Island; appears on the coast charts as Port Augusta, but is familiarly known by the Indian name of Comox. It is divided into three postal divisions, namely, Comox, Grantham and Sandwick, and has communication with Victoria and Nanaimo by steamboat. The mines, lumbering camps and farming interests of the district are fast increasing it in importance.

GRANTHAM is the northern postal division of Comox, and SANDWICK the central. Buttle's Lake is one of the many attractions of this section of country, and affords excellent fishing. Baynes Sound, the Straits of Georgia and Texada Island are all within easy reach. In the appended list of residents, the postoffices are indicated by their initial letter.

ESQUIMALT DISTRICT.

Esquimalt Town, Craigflower, Parson's Bridge, Colwood, Admiral Road, Esquimalt Road.

POSTMASTERS—ESQUIMALT TOWN, WM. S. GOODWIN; COLWOOD, A. H. PEAT.

Esquimalt District lies in a westerly direction from Victoria, in the Dominion Electoral District of Vancouver and Provincial Electoral District of Esquimalt, and is bounded by Royal Bay and Straits of Juan de Fuca on the south and Victoria Harbor on the east.

ESQUIMALT is built on a peninsula between the Royal Roads and Esquimalt Harbor, which is wide, well sheltered, and easily entered by ships of any size. It is the naval station for Her Majesty's ships, and possesses one of the finest dry docks on the Pacific Coast. The dock is built of sandstone, is 457 feet long, 57 wide and 27 deep. A large sum has been voted by the home government to improve the fortifications of the post, and work has practically commenced. Here is also situate the meteorological station—the most westerly and northerly telegraph reporting station on the continent. It is in charge of Mr. E. Baynes Reed, and is fully equipped with all the modern instruments for observing and recording the weather. Observations are taken every four hours, and telegraphed to Toronto and from thence to Washington.

COLWOOD is on the west side of Esquimalt Harbor, Brother's Island in Royal Bay. Constance Cove at the east end of Village Bay, Fisguard Island, the lighthouse station; and Village Bay the site of the Royal Naval Hospital are all in the Esquimalt District. Daily communication by rail over the E. & N. railway and by electric tramcar. Esquimalt is about three miles from Victoria, which is the banking point.

JOHNSON'S LANDING.

(P.O. now called Dewdney. See Nicomen.)

KAMLOOPS.

POSTMASTER, E. H. JONES.

In the Dominion Electoral District of Yale-Kootenay, and Provincial of Yale, is the most important and thickly populated town between Calgary and Vancouver, and hence is well known as the Inland Capital. It is beautifully situated at the confluence of the North and South Thompson Rivers, and is the divisional station of the Canadian Pacific Railway, 252 miles from Vancouver. It is essentially within the dry belt, and is hence a favorite health resort, especially for consumptives and those suffering from bronchial and lung affections. Within the past year the inland capital has been incorporated, with Dr. Clarke as its first Mayor, and a council board composed of the leading merchants. It has good water works, which give an ample supply for domestic purposes and fire protection; a money order, post office, express, telegraph and telephone service. The Bank of B. C. has a branch in the city, and every thing appertaining to the comfort and convenience of a large community is here to be found. Rich coal beds have recently been located in the imme-

diate vicinity, and are being worked, while the precious and base metals have also been struck in the locality. The *Inland Sentinel*, an influential weekly paper, is published here. The different religious denominations are well represented, as are also the various friendly societies. There is a good public school, and also one in connection with the Convent. The hospital is supported by Government grant, which is handsomely subsidised by local subscription.

KASLO CITY.

POSTMASTER, J. B. WILSON.

In the Dominion Electoral District of Yale-Kootenay and Provincial of West-Kootenay; is situated at the mouth of the Kootenay River, on the west side of Kootenay Lake. The city is 10 miles from Ainsworth, and about 18 miles from Pilot Bay, where the Hendryx smelting works are situated. The famous Kaslo and Slocan silver mines lie west about 15 to 20 miles. Kaslo, which boasts of a population variously estimated at from 2,000 to 2,500, is now the largest city in the interior, and is attracting much attention. The city has been duly incorporated, with Mr. Robert F. Green as Mayor, and the following councillors: Messrs. D. P. Kane, A. McKay, T. Devlin, S. H. Green, and A. Cameron. The Kaslo-Slocan Railway is projected to run from the city into the heart of the mining region, with several branches to meet the requirements of various groups of mines. Work was begun on the line last summer, and the expectation is to have it completed early this year. About 1,200 tons of ore have been mined during the past season, the gross value of lead and silver being estimated at $2,000,000.

KOOTENAY DISTRICT.

(*See Index for Various Towns.*)

The Kootenay district embraces the whole Columbia basin of British Columbia, and within its limits is to be found a great variety of climate, scenery and products. It may be said to be a geographical puzzle. The Kootenay river rises (lat. 51° 15 N) in the Rocky Mountains, and flows south into Montana and Idaho, passing the sources of the Columbia, its parent stream. The Columbia flows north (from lat. 50° 12) forming a great bend beyond the Canadian Pacific Railway, and returning southward to a point, 15 miles north of the International boundary, where it receives the Kootenay tributary, upon its return from the United States. There is thus an actual island six hundred miles round embraced in the great bends of the two rivers, and comprising the whole Selkirk and Purcell Ranges. East Kotenay consists of the upper Kootenay and Columbia valleys between the Rocky and Selkirk Ranges. Great Bend is the sweep of the Columbia, north of the Canadian Pacific Railway, round the northern end of the Selkirks. It is believed to be very rich in minerals, but as yet is practically undeveloped, and but little known owing to the difficulty of access. West Kootenay is the Columbia valley from the Canadian Pacific to the international boundary, and the Kootenay valley from the return of the river from the United States to its junction with the Columbia. Kootenay Lake is comprised in this western valley of the Kootenay. The more important towns and settlements throughout this vast region are treated of individually in this directory, and a general glance through the list will show that in nearly every section mining operations are carried on, while very many can justly lay claim to be excellent farming districts. Gold, silver, copper, iron, etc., of very high grade, are mined in great quantities, and every day some new find is being added to the long list of recorded and working claims. The heretofore inaccessability of the country has been its chief drawback, but the Provincial Government of late years, realizing the great importance of developing Kootenay, liberally subsidize local enterprise in the matter of road construction and handsomely encourage every desirable railway undertaking. As a result of this wise policy new sections of country are being opened up, and the investment of capital encouraged. A large number of railway charters have been applied for, and of those granted the Nelson and Fort Sheppard is one of the most important lines which has been completed within the past year. Work has also been begun on the Nakusp and Slocan line, and at an early date

OPEN DAY AND NIGHT. **Victoria Transfer Co., Ltd.** *Largest in the Province.*

21 and 23 Broughton Street, Victoria, B. C. Tel. 129.

operations will have commenced on the Lardeau & Kootenay Railway, which will run from the north-east arm of Upper Arrow Lake to the head of Kootenay Lake. A charter for this line was granted during last session of the Provincial Legislature. All these lines, whether constructed, under way, or contemplated, are destined to open up the richer sections of Kootenay.

Access may be had by steamer from Revelstoke on the C. P. R. to Sproat's Landing and thence by rail to Nelson; from Kootenay, Idaho, on the Northern Pacific, is by stage, 32 miles, to Bonner's Ferry, and steamboat to Nelson, 160 miles.

KUPER ISLAND.

(*See Chemainus.*)

In the Dominion Electoral District of Vancouver and Provincial of islands. Nearest postoffice, railway station, telegraph and express office, Chemainus, distance, 5 miles. Communication by steamer from Victoria, distant. 40 miles; also by Esquimalt and Nanaimo railway to Chemainus, distant, 52 miles, thence by boat, distant, 5 miles.

LAC LA HACHE.

LANGFORD PLAINS.

In Esquimalt District; nearest postoffice, Colwood, distant one and a half miles; communication by railway or livery from Victoria.

LANGLEY MUNICIPALITY.

POSTMASTERS, LANGLEY—J. M. DRUMMOND; LANGLEY PRAIRIE—WM. MURRAY.

Is in the Westminster Electoral District, sends three members to the Local and one to the Dominion Parliament. This municipality, including Langley and Langley Prairie, lies on the south side of the Fraser river, and commences at a point about 9½ miles above the city of Westminster. There is regular daily communication with New Westminster and other points by steamer. Post, money order, telegraph and express office; mails daily. There are also postoffices at Murray's Corner and at Shortreed's Corner, Alder Grove, six miles east, along the Yale road. The municipality throughout is an excellent farming section of the country.

NEW CALEDONIA.

New Caldedonia is one of the largest of the Hudson Bay Co's trading districts, being upwards of 300 miles square. It comprises part of three electoral districts, viz: Cariboo, Cassiar and New Westminster and includes most of what is commonly known as the Lake country. The chief resources of the country are furs, but there is a very perceptible falling off. The country has been burned over frequently, destroying vast tracts of timber, and the grass, herbs, etc., on which many of the fur-bearing animals live. Gold is found on the Fraser, Parsnip and Nechaco rivers, also in the Finlay branch of the Peace river. Fort St. James on Stewart's Lake, is the head post of the district. Fort George, Fort Fraser, Fort McLeod, Fort Connolly and Fort Babine are the other posts in the district. There is no regular postal system — letters are occasionally conveyed by the Hudson Bay Co's pack trains. Nor are there any roads; the pack horses travel over imperfectly defined trails.

NORTH WEST COAST.

In the Skeena division of the Electoral District of Cassiar, includes the big stretch of country extending from Alert Bay on the south to the Alaska boundary line on the north. There are some great timber belts, good minerals, and unlimited fishery prospects. The salmon canning industry is extensively carried on at Naas and Skeena rivers, also at Lowe, Smith, Gardiner and Rivers' Inlet. The timber consists principally of spruce, red cedar, hemlock and yellow cedar or cypress. There is regular steam boat communication, during the open season, with Alert Bay, Rivers' Inlet, Bella Bella, Skeena, Metlakatla, Fort Simpson, Naas River, Smith's Inlet, Gardiner's Inlet and Queen Charlotte Islands. Communication with Lorne Creeks, Forks of Skeena and Omineca is kept up by canoes during the summer months, but during the winter the river is frozen over and there is no traffic from November till May. Mails fortnightly. Telegraph, express and banking point, Nanaimo.

PLUMPER PASS.

Island District.

(*Including Mayne Island, Galiano, Saturna, Samuel, Gossip and Tumbo Islands.*)

POSTMASTER, W. T. COLLINSON.

Plumper Pass, situated on the south side of Active Pass, on the shore of Miner's Bay, Mayne Island, is the name of the postoffice which serves for Mayne Island, Saturna, Samuel, Gossip and nearly all of Galiano, with a small portion of Pender Island, which has a post-office of its own. The settlement has progressed largely during the past year. A fine hotel has been put up at Point Comfort. Coal has been discovered on Tumbo, Saturna and Mayne Islands. The C. P. N. steamers communicate with the islands almost every day. Victoria, Vancouver, New Westminster and Nanaimo are all equal distant to the settlement, about 35 miles. The whole district is very fertile, and game is plentiful.

RICHMOND MUNICIPALITY.

(*For list of residents see Steveston, Lulu Island, Tera Nova, Sea Island and Eburne.*)

In New Westminster District includes the islands at the mouth of the Fraser river, known as Lulu Island and Sea Island, and all the small islands adjoining. The municipality embraces an area of about 30,000 acres. Lulu and Sea Island are connected with the mainland by bridge. There are eight canneries in the district, and four postoffices—Steveston, Lulu Island, Tera Nova, and North Arm or Eburne. Stages run twice a day to Vancouver.

RIVERSIDE.

POSTMASTER, W. ELLIOTT.

Formerly known as Matsqui, is situated on Matsqui Prairie, in the District of New Westminster, and comprises about 10,000 acres of meadow land, which has all been well dyked. Communication by steamer with New Westminster, the nearest telegraph, express and banking point.

In the Dominion Electoral District of Yale-Kootenay and Provincial of Yale, is a flag station on the main line of the C.P.R., 82 miles from Vancouver.

SAANICH, NORTH.

POSTMASTER, T. J. FORFAR.

In the Dominion Electoral District of Vancouver and Provincial of Victoria, is about eighteen miles from Victoria in a northerly direction. The district throughout is very fertile. Cereal crops do very well, while the fruit grown on the peninsula is second to none in quality or flavor A comparatively new industry, and one which promises to grow to immense proportions, is hop raising. The surroundings of North Saanich are very pretty. Bazan Bay, Deep Cove, Shoal Harbor, and Union Bay, are among the more attractive spots along the water front. There is also an excellent hotel. The Victoria & Sidney Railway runs through the district. Nearest telegraph and express office, Victoria, which is also the banking point. Mails daily. Communication by rail, road, or water.

Saanich South, and other suburban districts, being part of the peninsula from which the name is derived, are in the Dominion Electoral division of Victoria District and Provincial of Saanich, 8 miles from

T. J. TRAPP & CO., Hardware, Paints, Oils and Agricultural Implements.
Columbia Street, NEW WESTMINSTER, B. C.

HUDSON'S BAY COMPANY Wholesale Grocers & Wine Merchants
VICTORIA, B. C.

Saanich North, and 13 from the City of Victoria. The region throughout is well wooded and watered, and is one of the most fertile on Vancouver Island. As a happy hunting ground, it every season attracts the lovers of sport in great numbers, the well known hospitality of the farming community and excellence of the numerous hotels adding in no small degree to the comfort of pleasure seekers. A flourishing agricultural association, under whose auspices shows are annually held, does much to further the interests of the farmers, and every year new tracts of land are being brought under cultivation. The advent of the Victoria and Sidney Railway, which runs almost from the end of the peninsula to Victoria, has given an additional impetus to settlers.

SIDNEY.

POSTMASTER, L. DICKENSON.

Sidney, the northern terminus of the Victoria & Sidney Railway, is a thriving little town which may be said to have sprung into existence since the inauguration of the line just completed, and the establishing of extensive sawmills by the Toronto & British Columbia Lumber Co. The harbor affords excellent accommodation for heavy draught boats at almost any stage of the tide or state of the weather, and the regular service which it is contemplated to establish between this port and the Mainland will shorten the sea passage by some hours. As the line of railway passes through a very rich farming country, good things are expected of it. Considerable trade is also expected from the neighboring islands. There is good hotel accommodation at Sidney, a postoffice, general stores, blacksmith's shop, butcher's stall, and a spacious public hall.

T. J. TRAPP & CO., Hardware, Paints, Oils and Agricultural Implements.
Columbia Street, NEW WESTMINSTER, B. C.

VERNON.

POSTMASTER, ROBT. MCDOUGALL.

In the Dominion Electoral District of Yale-Kootenay and the Provincial of Yale, is situated on the line of the Shuswap & Okanagan Railway, four miles from its terminus on Okanagan Lake, and is the centre of one of the largest and richest agricultural districts in the interior. Since the advent of railway communication the town has grown wonderfully, and was last year duly incorporated as a city. Mr. W. F. Cameron was the people's choice as Mayor, the Board of Aldermen being composed as follows: Messrs. J. Lyons, J. A. Schubert, S. C. Smith, A. G. Fuller and W. J. Armstrong. It enjoys the advantages of a good post, telegraph and express office, and a daily mail service; also a branch of the Bank of Montreal and an office of the Wolffshon & Bewicke financial firm. Vernon is the great distributing point for the lower country, and in addition to its railway connections, it also controls the navigation of the lake. The city is fast building up, the structures being of a very substantial character.

DIRECTORY LIBRARY.

The want of a *DIRECTORY LIBRARY* is one which has been keenly felt by the business men of this Province. British Columbia's trade with almost every quarter of the world is rapidly growing, and it is of the utmost importance that our merchants should be in a position to obtain the addresses of reliable firms abroad. Such a library is now available to the public. A small charge is made for consulting any of the following, among other directories now at our office.

COAL

THE

New Vancouver Coal Mining and Land Co.

LIMITED.

(FORMERLY THE VANCOUVER COAL COMPANY)

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

NANAIMO COAL
Famous Gas and House Coal.

NEW WELLINGTON COAL
Favorite House and Steam Fuel.

SOUTHFIELD COAL
Steam Fuel.

THESE COALS ARE MINED BY THIS COMPANY ONLY, AND BY UNION LABOR.

THE NANAIMO COAL gives a large percentage of gas, a high illuminating power, unequalled by any other bituminous gas coals in the world, and a superior quality of coke.

THE SOUTHFIELD COAL is now used by all the leading steamship lines on the Pacific.

THE NEW WELLINGTON COAL is the favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several mines of the Company are connected with their wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all stages of the tide. Special despatch is given to mail and ocean steamers.

HUDSON'S BAY COMPANY *WINES and LIQUORS, Free and in Bond.* VICTORIA, B. C.

CITY OF NANAIMO.

The citizens of Nanaimo will this year celebrate the twentieth anniversary of incorporation. Very many of those whose names appear in the directory of the Coal City, can remember the struggle there was at the time incorporation was first mooted, and although some of them were then opposed to the assumption of municipal management, all will now concede that the move was one in the right direction. The progress made since the date of incorporation has been as steady as it has been conspicuous. Only about ten years before this event, Nanaimo and its suburbs were the property of the Hudson Bay Co., held by virtue of a special Crown grant. From those pioneers of the Province, the New Vancouver Coal Mining & Land Company purchased all rights, and at once set to work to develop the rich coal beds, and make their newly-acquired property the Newcastle of the Far West. That they have succeeded, the Nanaimo of to-day shows.

The city is charmingly situated on elevated ground, and enjoys first-class harbor accommodation. Its mainstay is coal mining. In the "black diamond" a very extensive and ever increasing trade is carried on, the output of the mines being admittedly the best coal on the Pacific Coast. Not alone is the home market liberally supplied from this source, but immense quantities of coals are shipped to foreign ports. The mines are worked on the most approved principle, and those engaged at them form the bulk of a prosperous and happy community.

With an abundant supply of coal, and iron of high grade in the immediate vicinity, there is doubtless a great future in store for the city. The numerous other industries which naturally follow successful mining operations, are being established—slowly, it is true, but surely. Foundries, machine shops, saw mills, etc., are among the number, and all are doing well, while stores representing every branch of business are to be found within the city.

The affairs of Nanaimo are well looked after by a popular mayor, and an energetic board of aldermen, whose efforts are handsomely seconded by an efficient staff of officers. The city is lighted by electricity and gas, both illuminants being well patronized. There is also an excellent system of waterworks—ample for fire protection as well as domestic use, and an efficient fire brigade. The educational advantages of the Public School system are fully enjoyed by the citizens, who can boast of a first-class high school as well as several schools for minor branches of instruction. The spiritual welfare of the people is also well looked after, the different denominations being represented. All the well established friendly and benificary societies flourish in Nanaimo—indeed almost every man belongs to one or other of them.

That the citizens have faith in the future of their city, is manifested by the class of public and private buildings which have been erected and the proportions of those contemplated. The wooden structures which did service in the past, are rapidly being torn down to give place to more sightly and substantial brick buildings, and a wholesome spirit of competition has thus been aroused. In the newer portions of the city—residential and business—the buildings are all of a high class order, and tend to make the place look very attractive as viewed from the harbor. What are known as the five-acre lots have been in such demand, that new sections are being surveyed and mapped out, and will no doubt be cleared as soon as allotted, affording homes for hundreds.

The calm and land-locked bay is secured from the force of all storms, by Gabriola, Newcastle, Protection

GORDON has the LARGEST STOCK in B. C.

and the surrounding islands, but there are two clear channels for passage into the Straits available at all seasons of the year, and at every stage of the tide. There are no bars to navigation, and the anchorage is good. Some of the largest steamships and sailing vessels frequent the port, and are loaded with facility and despatch at the great wharves.

The Esquimalt & Nanaimo Railway runs from Victoria to Nanaimo, through a rich and well settled country. There is also regular steamboat communication with the principal ports on the island and mainland. The population of the city according to last census, was 4,595, but since that date there has been a considerable increase.

Municipal Officers.

City Clerk, Treasurer, Assessor and Collector, Samuel Gough; Police Magistrate, J. P. Planta, J.P.; Chief Constable of the city, Thos. O'Connell; City Police, Sergt. G. H. Gibbs and Special Officers; City Surveyor, A. R. Heyland, C.E.; Street Superintendent, Benjamin Baker; Health Officer, E. A. Praeger, M.D.

Provincial Officials.

County Court Judge for County of Nanaimo, Eli Harrison, jr.; Government Agent, District Registrar of Supreme Court, Registrar of County Court, Births, Marriages and Deaths, etc., Marshal Bray; Assessor and Collector for Electoral Districts, Mark Bate; Judge of Court of Revision under Assessment Acts, and Official Administrator for County of Nanaimo, J. P. Planta; Chief Provincial Constable and Gaoler for District, William Stewart; Sheriff for County of Nanaimo and Assistant Gaoler, Samuel Drake; Convict Guard and Constable, Archibald Hamilton; Constable for district, Alex. McKinnon; Government Inspector of Mines, Archibald Dick; Stipendiary Magistrate and Coroner for Counties of Nanaimo and Victoria, J. P. Planta.

Trustees—Geo. Norris, R. Nightingale, J. H. Pleace. Treasurer—Geo. Norris. Secretary—Walter Ross. Steward—Jesse Sage. Chief—J. H. Scales. First Assistant—J. Parkin. Second Assistant—A. Cassell. Engineer—Robt. Wenborn. Assistant Engineer—A. Shaw, jr.

Cemeteries.

NANAIMO PUBLIC CEMETERY.—Adjacent to, but ouside the city limits on south side of Comox road, is under the Deed of Gift from the Vancouver Coal Company. The Councillors for the time being of Nanaimo Corporation are Trustees for the management, which is regulated by a special by-law, enacting rules and a scale of fees for interments, etc. The City Clerk, Samuel Gough, is Secretary to the Trustees.

OLD CEMETERY—Disused, southeast corner of Comox Road, Wallace street.

ROMAN CATHOLIC CEMETERY—Southwest corner of McCleary and Fitzwilliam streets.

Hospitals.

THE NANAIMO HOSPITAL is a very worthy institution, and is liberally supported by Government grant and private subscription. The committee of management consists of nine members, two of whom are named by the Government and five by the subscribers to the institute.

City Council, 1893.

Mayor, A. Haslam; Councillors, J.R. Craig, R. Nightingale, W. Keddy, E. Quennel, J. Gonner, W. Hilbert, J. H. Cocking, G. McKennell, and J. Frome.

Board of Trade.

President, W. H. S. Perkins; Vice-President, George Williams; Secretary-Treasurer, Marcus Wolfe; Council, A. R. Johnston, W. K. Leighton, Dr. Praeger, T. W. Glaholm and E. M. Yarwood.

Postal Arrangements.

Postoffice, Front St. Postmaster, A. H. Horne; assistant, Miss Mowat. Office open from 8 a. m. to 6 p. m. except Sundays.

DIRECTORY LIBRARY.

The want of a ***DIRECTORY LIBRARY*** is one which has been keenly felt by the business men of this Province. British Columbia's trade with almost every quarter of the world is rapidly growing, and it is of the utmost importance that our merchants should be in a position to obtain the addresses of reliable firms abroad. Such a library is now available to the public. A small charge is made for consulting any of the following, among other directories now at our office.

VICTORIA

CITY AND DISTRICT.

VICTORIA, the capital of the Province, is the oldest, the wealthiest, and most populous city in British Columbia. It was originally the chief trading post of the Hudson's Bay Co., and many of the older inhabitants can recall to memory the little band of "whites"—they could be counted almost on one's fingers—who in those days held sway among the hordes of dusky aborigines. Subsequently, as a Crown colony, things began to improve, and hundreds of desirable settlers were attracted to the shores of what was destined to become a great centre of trade and commerce. Although discoveries of gold had been made as far back as 1850, it was not until 1858 that the gold fever became rampant. Two years before this date, Governor, afterwards Sir James Douglas, officially reported to the Colonial Office, that the precious metal was to be found in paying quantities, and the report having been confirmed, a wonderful influx of people was the result. It is computed that in 1858, between thirty-five and forty thousand persons flocked into the Province, and as Victoria was the great distributing point, the city sprang into a prominence which she has since maintained. The new-comers were chiefly from California, where mining operations were being vigorously pursued, and but few of the vast multitude had reason to regret their change. During the first six months' operations the yield of the newly-discovered mines totalled over half a million dollars. In the following year this amount was more than doubled, and the increase continued until 1863, when the output of the mines reached $3,735,850. Owing to the inaccessibility of many of the scenes of operation, the absence of trails or roads, the difficulty of transportation, and the want of proper appliances for working the mines, the mining population began to dwindle down; but the future of Victoria had been established. When in 1872 the colony entered into confederation with the other provinces of the Dominion of Canada, the population was inconsiderable, and all eyes were naturally turned towards Victoria, the capital of British Columbia. The rapid progress of the city, and indeed the Province generally, since that date, has been almost phenomenal. When one hears an "old-timer" (as the earlier settlers are familiarly called) speak of the Indians squatting along the grass-grown tracts which did service as streets, in their Adam-and-Eve costumes, or decked out in the full-dress blanket, he is forced to realize how great has been the progress made since those comparatively recent days. Those grass-grown tracts are now well-built streets, and the old wooden shacks which once adorned them have long since disappeared to give place to palatial brick buildings of busy merchants and traders. And the Indian—he, too, has advanced with the times, and now takes a hand in nearly every business in which his white brother is engaged.

The last official census gave Victoria a population of but 16,849. The figures were so palpably incorrect that the City Council ordered a census to be taken on their own responsibility. The work was undertaken in a most systematic manner and carried to completion in October of 1891. As a result it was found that the population was 23,153, which may be accepted as the correct figure—for that year. But unfortunately when Victoria's prospects looked brightest

the city was visited with that dreaded pest, smallpox, imported into her borders. Her health record had always been so good that the visitation found the citizens unprepared. Suitable arrangements were, however, promptly made for effectively dealing with the trouble, which was soon overcome, but, as might be expected, a general stagnation of trade followed, from the effects of which, coupled with the widespread depression which appears to have effected almost every quarter of the globe, she cannot be said to have yet quite recovered. Although business during the past year has not been as brisk as usual, Victoria compares more than favorably with the neighboring cities across the line. A decided improvement has taken place, and the prospects for the year just entered upon are brighter and more hopeful than ever.

The geographical position of Victoria is such as to ensure her a most prominent place among the great cities of the Pacific Coast. The city is distant but 38 miles from Port Townsend, 18 from Port Angeles, 100 from Seattle, 128 from Tacoma, 72 from Vancouver, 73 from New Westminster, 72 from Nanaimo and 750 from San Francisco, with all of which ports there is a regular steamboat service, connecting with the Canadian Pacific, Northern Pacific, Union Pacfic and Great Northern railway systems. Vessels of the heaviest draught can ride with safety in the harbors, which are as commodious as they are sheltered, no matter from what point of the compass the wind blows.

Vancouver Island, on the southern extremity of which the city is built, is rich in minerals, more especially coal and iron. Coal mining is carried on on a very extensive scale, the product of the island colleries being the best in quality on the Pacific Coast, while the quantity is practically unlimited. Assays of the iron to be found in almost every quarter of the island prove the ore to be of a very high grade, but up to date this source of wealth has not been utilized. Then there are the numerous other resourses, of land and of sea, which are bound to be developed in the near future, and so soon as that time arrives Victoria will be more than ever a great commercial centre.

As the capital of the province and the seat of government, the city is headquarters for the trade and commerce of British Columbia. Most of the leading industries are controlled by her capitalists and merchants.

The climate of Victoria and district is all that can be desired, while the beauty and variety of the scenery is nowhere surpassed, if at all equalled. It is hence a favorite resort of tourists, who are ever loud in their praises of the Queen City of the West. Hotel accommodation is excellent, and rates very reasonable. One of the leading hostelries alone can accommodate upwards of 300 guests, while nearly all of them which cater to the commercial and tourist trade are establishments as comfortable and commodious as need be wished for. The spring, summer and autumn are charming, and the winter mild, the glass never falling to near zero. The average rainfall is but 34 inches, which is far less than that of any city on the Coast north of San Francisco. The business quarters are well built up and compact; the residential sections are chiefly suburban and are the admiration of all visitors. Well kept lawns, beautiful gardens, neat and attractive surroundings, and an endless variety of architecture, all lend a charm to a walk or drive away from the busy hum of the scenes of trade and commerce. A Victorian's favorite Christmas greeting to a distant friend is a choice rose or scented bunch of the sweet little primrose indiscriminately culled from the budding bush or garden plot. "The last rose of summer" is a flower unknown to the happy residents of this favored clime.

For the pleasure seeker there is no more attractive spot. Beautiful drives over splendid roads, with an endless variety of scenery; excellent fishing and shooting within easy distance; yachting and rowing, sight-seeing and society—are all among the irresistible temptations which every

21 and 23 Broughton Street, Victoria, B. C. Tel. 129.

year make Victoria more popular. Nor does she welcome to herself the tourist alone. Men of enterprise and capital will here find ample opportunities for the profitable investment of both. Fortunes have been and are being built up here; and what so many have done and are doing, others can do. Victorians have unlimited confidence in the future of their city, and are practically demonstrating this confidence by increasing their stake. During the past year, despite the hard times, upwards of half a million dollars have been put into buildings, the street mileage considerably increased, a new and improved sewerage system laid down, and several large and important public works undertaken. The establisnment of regular steamship communication with Australasia and the Orient have given a great impetus to trade, which will be further strengthened when Victoria is made a transcontinental railway terminus, by the inauguration of the Canada Western Railway, arrangements for which are now almost complete.

The city offers every inducement to honest, industrious people who wish to make it their home. The educational facilities are unsurpassed. Public Schools are free to all, and are presided over by most competent teachers, while the more promising pupils have open to them the High School, where the advanced branches are taught. All the religious denominations are well represented, as are also the various fraternal and beneficary societies. The people are industrious and law abiding; the streets well lighted by electricity, and well drained; the water supply wholesome and abundant, and the health record second to none of any city of the size. Living is cheap and the rate of wage respectably high.

The interests of Victoria are well looked after by a Mayor, Board of Aldermen, Board of Trade, Citizen's Association and the various other public bodies, and although, in proportion to the amount of revenue derived from this city and port, the Dominion authorities have not been as liberal to Victoria as might justly be expected, a clearer and more generous policy has been inaugurated. A new post office, (sadly needed) custom house (ditto), and excise establishment (also ditto) are to be built. A suitable marine quarantine station has just been completed, at William's Head, which, it is hoped, will be the means of preventing the importation into the city of contagion from foreign ports. The old Legislative buildings are to give place to a magnificent new structure. work on which is now well advanced, The erection of a couple of new bank buildings, more fittingly to represent the amount of business transacted in those institutions, is also on the *tapis*, while contracts have been awarded for the building of four ward schools, and extensive additions are to be made to the fortifications of Esquimalt. On the whole, the outlook is bright for the year of grace 1894.

As far as the accessibility of Victoria is concerned, there is no city more easy of approach. A few hours' sail from the Mainland or Puget Sound ports lands a passenger safe and sound at one or other of the many wharves which line the harbor. From the Atlantic to the Pacific the C.P.R. wends its way; the Northern Pacific Railroad carries its freight and passengers to all points east and south of Uncle Sam's domain, and is run in connection with their excellent steamship service. The Union Pacific and Great Northern afford like accommodation, and the local steamship lines do their good work in their good style. The Esquimalt & Nanaimo Railway, and the Victoria & Sydney R.R. supply the Island, so far, with the iron horse; and points not reached by either are brought into touch with the city by regular steamboat service.

Farming operations are being rapidly extended in the Victoria district, and an excellent and spacious Public Market has been established for the convenience of all desiring its use. It is in charge of a very efficient and courteous superintendent in the person of Mr. E. Johnson (a popular old-timer), and although not

very liberally patronized will no doubt soon be.

The charitable institutions of Victoria are standing monuments to the whole-heartedness of her people. The aged and infirm find comfortable quarters in their declining years in the Old Folk's Home. In the Royal Jubilee Hospital, the sick and disabled are treated with skill and kindness; the fatherless have their best interests looked after in the orphanages; the widow ever finds the helping hand stretched out to her and the word of sympathy spoken; and the poor and friendless never appeal to the B. C. Benevolent Society in vain. All and more of these worthy institutions are mainly supported by voluntary subscriptions.

AROUND VICTORIA.

It would be difficult to enumerate the many "places of interest," as the term goes, in and around Victoria; the number and variety is endless.

The Agricultural Grounds are every year becoming more useful and popular. Here is held the annual show under the auspices of the B. C. Agricultural Society—an institution which has done much to promote the agricultural as well as the industrial resources of the district. A splendid and spacious exposition hall adorns the grounds. From the tower of the building a charming view of the surrounding country is obtainable. Adjoining the Agricultural Grounds is the Driving Park, with an excellent track over whose surface some of the best blooded horses of the province are paced. The Victoria Jockey Club, who hold the Driving Park, have done much to improve the breed of horses in this country.

Beacon Hill Park is another very attractive rendezvous. Nature has done much for this charming spot, and art not a little. The grounds are at a considerable altitude, and command a magnificent view of of the Straits of San Juan de Fuca and the surrounding district. It is the popular recreation ground for Victorians and at all times of the year the games "in season" are here enjoyed. From a neat band stand the strains of sweet music are to be heard.

Clover Point is another of the many places of interest within easy access of the city.

Church Hill is the site of the present Church of England Cathedral, and commands a splendid view of the city. A new edifice, to cost in the neighborhood of $250,000 (from the plans of Messrs. Evers and Keith, architects, of this city) will shortly be erected.

Douglas Monument was erected to the memory of the late Sir James Douglas, Governor of the colony. The site is a very beautiful one, on the grounds of the Provincial Government buildings, James Bay.

Foul Bay, (the name is not an appropriate one) is situated at the south-eastern extension of the city limits, and is a very pretty drive.

The Gorge is, *par excellence*, the choice spot of Victoria. To appreciate the grandeur of the scenery of this gem of nature necessitates a visit. It is reached either by land or water—the drive being equally pleasant as the row. The Gorge is the scene of the Queen's Birthday celebrations—an event celebrated with greater *eclat* by Victorians than by any of the subjects of her over whose possessions the sun never sets.

The Indian Reserve contains about 108 acres on the west side of the harbor and is connected with the city by two bridges, one being that of the E. & N. Railway, which has a swing to allow the passage of vessels. The reserve is a great eye-sore to Victorians, who are never ceasing in their efforts to have the few Indians who remain in possession of this fine tract of land, in the very heart of the city, removed to quarters more congenial to themselves. Here are to be seen a few delapated "rancherees" and the remnants of a once powerful tribe.

The Outer Wharf is at the entrance to the harbor, and affords a landing place at all stages of the tide and in all sorts of weather for the largest vessels. A spacious dock has been constructed and extensive storehouses erected.

TIM KEE, EMPLOYMENT AGENCY Guides furnished to tourists. All kinds of Chinese help supplied on the shortest notice.
No. 23 STORE STREET, VICTORIA, B. C.

DREWRY'S REDWOOD BREWERY - WINNIPEG.
Drewry's Ale, Porter and Lager is Recommended by Physicians Generally.

Cadboro Bay is a favorite rendezvous of pleasure seekers. It is just such a place as fancy would paint—a beautiful beach, well shaded by trees, with a strand of sand and fine gravel, and a nice rolling Pacific surf. While enjoying the pleasures of a sea bath, the bather can watch the passing steamers or the filling of the canvas on sailing craft. The line, the gun or the rod can also be used to advantage.

Cedar Hill (or Mount Douglas) is a five-mile pleasant drive from B.C's capital. The district is chiefly a farming one, and from the top of the hill a beautiful view is obtainable—an ideal picture, including land and sea.

Gordon Head is another favorite resort of Victorians, who always commend it to visitors. It affords a beautiful maritime view, and, as is the case with the rest of the Island, is well wooded.

Oak Bay is in close proximity to Victoria, and is a spot which well repays a visit. It is now connected with the electric tram-car system, and a 5c. ticket will bring one there. An excellent hotel has recently been established. Victoria is extending in this direction, which at no distant future will be within the city limits.

Mount Tolmie, as the name will suggest, is on elevated ground. From the "mount" a good view is obtained of Victoria and its surroundings. It is only one mile from the electric tramway line, and arrangements are being made for the extension of the system to the seat of building operations in the settlement.

Esquimalt is the naval station on the Pacific Coast for Her Majesty's fleet, and is never without a couple of vessels representing

"The flag that's braved a thousand years,
The battle and the breeze."

The Cemetry is not a pleasant place to visit for those who have friends beneath the sod, but to others it will demonstrate the veneration in which the dear departed are held by Victorians. The Jewish Cemetery is also a place of interest.

Victoria City Council, 1893.

The Mayor is elected annually. The Aldermen of each ward hold office for one year. Elections in January.

The Council meet every Monday evening at 8 o'clock, in the City Hall, cor. Douglas and Pandora Sts. The public are admitted.

MAYOR—Hon. Robert Beaven, M. P. P.

ALDERMEN—North Ward, Ald. Robertson (vice Munro Miller,) Baker and Bragg; Centre Ward, Ald. Styles, Belyea and McKillican; South Ward, Ald. Munn, Henderson and Harris (vice McTavish.)

PERMANENT OFFICERS—City Clerk, W. J. Dowler, B. A; Treasurer, Assessor, Accountant and Collector, Charles Kent; Auditor, James L. Raymur; Collector of Water Rates, T. J. Partridge; Assistant Treasurer, E. C. Smith; City Engineer, Surveyor and Water Commissioner, E. A. Wilmot, C. E; Sanitary Officer, Alex. Murray; City Librarian, J. McGregor, L.L.D; Water Works Foreman, T. Preece; Building Inspector and Assessor, W. W. Northcott.

POLICE—Magistrate, F. MacRae; Clerk of Court, W. C. Pope; Superintendent, Harry W. Sheppard; Sergts. J. W. Walker, H. A. Levin and John Hawton. There are twelve constables for city duty.

FIRE DEPARTMENT—Chief, T. Deasy; Assistant Chief, M. J. Conlan. There is a numerous and efficient staff, and first class appliances. Following is the fire alarm system:

James Bay.
